

NOW IN THE HAYNESVILLE SHALE

Drill Site Noise Control Solutions

**ENVIRONMENTAL
NOISE CONTROL, INC.**

800-679-8633

Specialized Services and
Sound Control Systems
and Materials for
Urban Oil and Gas Drilling
and Production

Including:

■
NOISE MEASUREMENT,
MONITORING AND ANALYSIS

■
DRILLING, FRACING AND
PRODUCTION NOISE CONTROL

■
NOISE IMPACT MODELING
AND PREDICTION

■
PERMIT AND COMPLIANCE
ANALYSES AND REPORTS

■
Drilling, fracing and production sound measurement, monitoring and compliance programs including Noise Abatement Studies, Noise Compliance Reports, EIR, EIS, HUD, OSHA, CAC title 24 and CEQA Reports

■
Temporary drilling, fracing and production equipment and operations sound control walls, materials and systems. Sound control materials are available as rental or purchase with delivery, installation, and removal services available.

■
Permanent sound control system design, engineering and installation services. Sound control systems include sound barrier walls, equipment enclosures and acoustically rated buildings.

■
Practical, cost-effective noise code and mitigation design analysis, field measurement, monitoring and mitigation

■
Computer noise impact prediction modeling of drilling, fracing and production operations
